

KSHSAA Guidelines for Starting/Stopping Shot Clock - Operators

- 1) Have an alternate timing device (stop watch) or procedure available in the case of a failure or lack of availability of the electronic clocks.
- 2) Reset the shot clock to full amount (35 seconds):
 - a. When team control is again established after the team loses possession of the ball.
Note: The mere touching of the ball by an opponent does not start a new shot clock period when the same team remains in control of the ball.
 - b. When any of the following occur:
 - i. A single personal foul.
 - ii. A single technical foul assessed to the defensive team.
 - iii. During team control, a defensive player causes a held ball, and the alternating possession arrow favors the defensive team.
 - iv. When a try for goal strikes the ring or flange and then possession is gained by either team.
 - v. When a violation occurs.
 - vi. After a held ball occurs during a throw-in, and the alternating possession arrow favors the team that did not make the throw-in
 - vii. After a held ball occurs after an unsuccessful try that does not contact the ring or flange and the alternating possession arrow favors the non-shooting team
 - viii. After the ball goes out of bounds and was last touched simultaneously by two opponents, both of whom are either inbound or out of bounds or when there is doubt as to who last touched the ball and the possession arrow favors the defensive team
 - ix. When there is an inadvertent whistle and there was no player or team control at the time of the whistle
- 3) Stop the timing device and continue time without a reset when play begins under the following circumstances:
 - a. The ball is deflected out of bounds by a defensive player
 - b. A player is injured or loses a contact lens
 - c. A charged timeout has concluded
 - d. During team control as defined in NFHS Rule 4-12-1, a defensive player causes a held ball, and the alternating possession arrow favors the offensive team
 - e. After any double personal or technical fouls or simultaneous personal or technical fouls when there is team control unless the penalty for the foul results in a change of possession
 - f. After an inadvertent whistle when there is team control
 - g. After a held ball occurs during a throw-in, and the alternating possession arrow favors the team that made the throw-in
 - h. After a held ball occurs during or after an unsuccessful try that does not contact the ring or flange, and the alternating possession arrow favors the shooting team
 - i. After the ball goes out of bounds and was last touched simultaneously by two opponents, both of whom are either in bounds or out of bounds or when there is doubt as to who last touched the ball and the possession arrow favors the offensive team.
Note: The offensive team, upon regaining possession of the ball for the throw-in, shall have the unexpired time on the shot clock to attempt a try.
