

April 1, 2024

Kansas High School Track and Field,

A few key things as the calendar flips to April:

- [Regional assignments](#) are on the track and field page of our website.
- Teams with wheelchair competitors, please email me times in the 100m, 400m and 1600m after each meet. The top 16 boys times and the top 16 girls times in the wheelchair 100m and wheelchair 400m qualify for the state meet. Our office doesn't know those times unless coaches email them to me. More information including the 1600m qualifying standard is found in the [wheelchair information link](#).
- Regional entries are due by noon central time on Monday, May 13 through Kansas MileSplit.
- The State Meet will look and feel different without the east bleachers. Where the east side bleachers were, there is level gravel as well as a slope down to track level. Our staff along with Wichita State Athletics is currently finalizing a plan for the team camp area. That plan will be communicated in the future. Teams are encouraged to bring a 10'x10' tent along with matts and heavy blankets to rest on.
 - The meet will stay in its traditional two-day format. The [meet schedule](#) is on the track and field page of our website.
- Please welcome new T&F/XC/Basketball administrative assistant TeeJay Barnhart to our staff. Today is TeeJay's first day in the office. Her email address is TBarnhart@kshsaa.org.
