In the 1981 legislative session, the following, which applies to unified school districts, was passed:

Any member who abstains from voting shall be counted as voting against the motion or resolution. If a member announces a conflict of interest with regard to the issue, the member may leave the meeting until the voting on the issue is concluded, and the member who abstains from voting thereby shall not be counted as having voted. K.S.A. 72-1138.

(See **Bylaws, Article XIV - Approval of Events.**)

Referred by KSHSAA Executive Board (March 23-24, 2021)

13. Establishing end date for mandatory face-covering in response to Covid-19:

At the special meeting of the KSHSAA Board of Directors on November 24, 2020, the following rule was approved by a vote of 76-1:

All participants (including but not limited to athletes, coaches, officials, spectators, support staff and all others attending/participating in school activities) shall wear a face covering in the manner it is intended to be worn (for purpose of COVID-19 risk mitigation) while at the event venue and for duration of the event. The only exception is provided for athletes during the time they are competing and for officials during active play.

Note of clarification for spring outdoor activities:

*KSHSAA Executive Board interpretation (March 23, 2021): Any participant (including but not limited to athletes, coaches, officials, spectators, support staff and all others attending/participating in school activities) **outdoors, who is able to maintain a minimum of six feet of social distancing** would not be required to wear a face covering. Adherence to a more restrictive local health authority or school district policy is supported and expected.*

The Executive Board proposes the following update to the adopted language:

The requirement for wearing a face covering terminates with the conclusion of KSHSAA spring championship activities for the 2020-21 school year. After the final KSHSAA spring championship, schools shall continue to adhere to all local risk mitigation policies. The KSHSAA strongly recommends face coverings continue to be worn until the CDC and KDHE indicate this health preservation measure is no longer necessary.

Referred by KSHSAA Executive Board (March 23-24, 2021)

Academics + Activities = Curriculum Partners

WHY HAVE STUDENT ACTIVITIES? In the last few years the value of high school activities has been questioned. Let's set the record straight as to what high school activities are all about. First of all, they are not a separate part of our overall education program but an integral part of it. A good, well-rounded education means not only one that is academically oriented, but one that also includes physical, social and emotional development. These are available through a good school activities program.

Activities are a citizenship laboratory—Participation in activities encompasses all races and creeds, and teaches a student that it is a privilege and an honor to represent his or her school. Students learn that activities are important because they show a person how to win, and how to lose. Activities teach self-confidence, poise, respect for the rules and good sportsmanship. Through participation in activities, students learn tolerance and understanding for people and how to control their emotions. They also learn the self-satisfaction of accomplishing a goal.

Interscholastic activities constitute a part of the right kind of "growing up" experiences for American boys and girls. Youth are interested in doing things well—in belonging—in displaying loyalty. With a well administered school program, students and spectators become better citizens through participation and observance of activities conducted under established rules impartially administered.

Activities encourage physical and mental excellence—Documented reports and statistics from the high schools of Kansas continue to show the "holding power" of activities programs. Those students engaged in any phase of the extracurricular program show a drop-out rate far below that of the uninvolved student. Over 90 percent of those students who drop out of school at the senior high level have never been involved in any activity as representatives of their school!

Grade point averages of students in athletics, speech, music, cheerleading, club programs, etc., rank well above those students who choose not to participate. Interestingly enough, the statistics point out "the more participation the better the GPA!"

The loss of school instructional time, documented by reports from member schools, clearly shows students miss more instructional class time for family vacations, medical reasons, parental excuses, vocational activities, etc., than they do for all KSHSAA-sponsored school activities combined.

Activities reach out to the community—Activities in our Kansas schools will be as good and as sound as those who administer and support them. Rules and regulations are valueless unless they are embedded in the "grass roots" of the local school and community. The underlying philosophy of interscholastic activities presupposes these rules and regulations are for the good of the students themselves—just as are the other phases of the educational program—and that is the way the citizens of Kansas want them to be.

Supplemental BOD Agenda information regarding **Unified Bowling**
(Approved 3/24/21 by Executive Board for inclusion on April 30, 2021 BOD Agenda)

Unified Bowling

1. Purpose of Unified Sports®

Dedicated to promoting social inclusion through shared sports training and competition experiences, Unified Sports® joins people with and without intellectual disabilities on the same team. It was inspired by a simple principle: training together and playing together is a quick path to friendship and understanding. Having sport in common is just one way that preconceptions and false ideas are swept away.

2. Definitions

Unified Sports - Special Olympics Unified Sports® is an inclusive activities program that combines an approximately equal number of Special Olympic students with intellectual disabilities and students without intellectual disabilities on teams for competition and inclusive activities fostering an environment of social inclusion. Unified Sports at the high school interscholastic level is a school athletic/activity program that is co-supported by the Kansas State High School Activities Association and Special Olympics Kansas. These teams are administered and supported in a manner similar to other interscholastic athletic teams and activities programs in the schools.
