Proposed by the KSHSAA Executive Board (June 16-17, 2021)

ENROLLMENT MULTIPLIER PROPOSAL

In response to member schools concern relative to the disparity of championships won by private schools as compared to the championships won by public schools (on average, the 27 private schools comprise 7% of the membership yet win 21% of the championships), the KSHSAA has evaluated a number of options which may impact classification. Most recently, the Executive Board convened a Work Group comprised of stakeholders to develop a “multiplier” which would be applied to the enrollment count for member private schools, and which would artificially inflate respective enrollment of those schools. The model proposed multiplier includes factors relative to school location, socio-economic status, and a championship factor. The following details are included in the proposal:

CRITERIA

All private schools begin with a 1.0 multiplier.

Based upon criteria below, the following would be added to the multiplier for respective schools

1. Geographic Population – public school attendance area in which the private school is located.

Within a 5A/6A community:	+ 0.30
Within a 3A/4A community:	+ 0.15
Within a 1A/2A community:	+ 0
2. Championship Factor - cumulative state championships over the previous 5-year period (not activity specific).

10+ championships:	+ 0.30
5-9 championships:	+ 0.15
<5 championships:	+ 0
3. Free/Reduced Lunch Population

0-20% Free/Reduced students reported:	+ 0.15
>20% Free/Reduced students reported:	+ 0

NOTES

- The multiplier impacts classification for all school activities
- General Classifications maintain same number of schools
(6A – 36, 5A – 36, 4A – 36, 3A – 64, 2A – 64, 1A - 116)
- Schools cannot move up more than one classification based upon multiplier.
- Multiplier enrollment count does not force a school to move from 8-person to 11-person football.
- Geographic location is determined by address of private school.
- Championship factor reflects team championships, not individual.
- If Free/Reduced data is not collected/reported, it is assumed to be zero and 0.15 would be applicable
- No Appeals process.

Input collected from the Regional meetings to include:

- Do the addends need to be adjusted?
- Any other measurable factors to consider?
- Other considerations?

KSHSAA Handbook defined steps to change classifications:

1. BOD approval
2. School approval
 - a. Majority of schools
 - b. Majority of classifications impacted
3. KSBOE approval
4. Legislative relief
